# Sleep the way you want.

The AirFit N30i and P30i masks give you the freedom to sleep in any position. The discreet, minimalist design features a convenient top-of-the-head tube design. With no front-end tube, the mask stays out of sight and out of the way.

**Hitwin**  
HEALTHCARE

# Get closer to your partner.

Sleep close to your bed partner and enjoy a goodnight kiss – with the N30i and P30i, nothing gets in the way. For an even more intimate experience, choose the P30i pillows cushion with an integrated QuietAir™ vent that gently diffuses a whisper of exhaled air.<sup>3</sup>

## Make your choice.

A convenient modular system means you can use an N30i nasal cradle cushion or a P30i pillows cushion with the same comfortable tube-up frame and headgear. If you change your mind, it only takes a moment to change cushions.

- 1 Top-of-the-head tube** design makes it easy to sleep in any position.
- 2 Self-adjusting SpringFit frame** adapts for a stable, reliable fit.<sup>1,2</sup>
- 3 Minimalist design** leaves your face clear for easier communication.
- 4 Nasal cradle cushion** covers less of your face and sits discreetly under your nose, not in it.
- 5 Pillows cushion features a QuietAir vent** for a relaxing bedroom environment.
